PRESS RELEASE

COIM lands on the moon

The moon probe Chandrayaan-3, launched on 14 July 2023, successfully completed its moon-landing mission to which COIM contributed with its Novacote – Coiminks extrusion primer PR8099 manufactured in India.

Milan, 30/8/2023 - **COIM**, an Italian multinational that has manufactured chemical products since 1962 and that operates all over the world through nineteen manufacturing and trading companies, **lands on the moon also through the collaboration of its Indian trading partner M/s Uma polymer ltd.**

The moon probe Chandrayaan-3, launched on 14 July 2023, successfully accomplished its mission of **landing on the lunar surface** also thanks to COIM. The Indian subsidiary of COIM provided its partner M/s Uma polymer ltd with the **Novacote-Coiminks extrusion primer PR8099**, produced locally, to manufacture **flexible hoses that ensure the air supplied to the launch vehicles is clean and cool**. These solutions have been used by ISRO (Indian Space Research Organisation) in the past 50 missions, including Chandrayaan-3.

“We are proud to have contributed to this major success with a great COIM product.” states **Giuseppe Librandi, President and CEO of COIM**. “Our congratulations go to our partner M/s Uma polymer ltd for the fruitful and long-standing collaboration with ISRO, the Indian space research organization, and we are confident that we will reach many other ambitious goals together”.
