Coiminks will introduce price increases for nitrocellulose-based products in EMEA markets

The increase is driven by the growing global shortage of nitrocellulose

Milan, August 2025 - **Coiminks**, the business unit specializing in inks and coatings for flexible packaging of **C.O.I.M. S.p.A.**, (coimgroup.com), a multinational company headquartered in Offanengo (CR), which has developed and manufactured specialty chemicals since 1962, leader producer of polyesters, polyols, polyurethanes, and specialty resins for composite materials and coatings, announces a price adjustment for all nitrocellulose-containing products (inks, varnishes, primers, and overprint varnishes) in Europe, the Middle East, and Africa.

The sharp costs increase and the growing global shortage of nitrocellulose have created significant pressure on the prices and availability of raw materials.

Starting September 1, 2025, Coiminks will therefore apply a price increase, which will vary based on the nitrocellulose content of each product.

The COIM Group's priority to ensure constant supply, while maintaining the quality and continuity of its products and evaluating possible technical alternatives, has led to these significant costs being incurred in recent months.

* * *

C.O.I.M. S.p.A. It was founded in 1962 from the meeting between Mario Buzzella and Cesare Zocchi, two individuals united by a passion for chemistry and entrepreneurial spirit. They started a business aimed at meeting the growing demand for chemical products generated by a rapidly expanding economy.

After 62 years, the COIM Group is an Italian multinational that develops, produces, and markets specialty chemicals worldwide for the manufacturing industry, ensuring local presence through 19 companies - of which 9 are specialized production and R&D sites - in Italy, Singapore, India, the USA, Brazil, Spain, Austria, and the Netherlands. Over 1,350 specialized employees are dedicated daily to understanding and meeting customer expectations with three main product families:

1. Polyesters and polyols;
2. PU Case: coatings, adhesives, sealants, and polyurethane-based elastomers;
3. Polyesters and special resins.
