

Environment

COIM Group recognizes that environmental protection is a priority issue, totally integrated into the company business model.

COIM Group is committed to protect the Environment and to pursue the objective of continuous improvement of its environmental performance and reducing greenhouse gas emissions.

COIM Group promotes:

- Cooperation between all staff and encouragement of active contribution of employees and third parties.
- Environmental protection in general.
- Attention to the needs of all the Stakeholders.
- Centrality of people and the sharing of experience and knowledge.

COIM Group guarantees:

- ⚙️ That all legal requirements applicable to its business are distributed, applied and complied with under a proactive approach.
- ⚙️ The identification of environmental problems and assessment of directly related impacts, defining adequate improvement plans for:
 - minimization of emissions into the environment;
 - protection of the soil, ground and groundwaters from pollution;
 - minimization of the quantity of waste produced, optimizing its management by encouraging recycling and reuse, where possible;
 - prevention of pollution in wastewater discharges;
 - the recovery of raw materials and natural resources.
- ⚙️ Monitoring of its activities to check the status and achievement of its environmental targets.
- ⚙️ The adoption of the best available economically sustainable technologies and best business practices.
- ⚙️ Collaboration with Local Institutions, Representative Bodies and any other external Stakeholder in relation to environmental issues, with consequent promotion of the Company's relationship with the surrounding area.
